Energy Sector

Asia is the biggest Source as well as the Consumer for Power, Oil and Gas. Considering the fact that Asian Countries like India, Bangladesh, Nepal, Bhutan are Developing Countries and they are moving very fast in Infrastructure development, there are lot of opportunities in the Asia in Power, Oil and Gas Sectors as the Demand is increasing many folds considering the rapid growth strategy of respective countries.

India is biggest opportunity for Global oil Producers and they are eyeing on India to enter into growing Indian refinery sector. If we go by the data, India is the third biggest importer of oil. India is looking to increase its refining capacity many fold.

India is looked as the Investment opportunity by key stakeholders of Oils & Gas from Kuwait, Saudi Arabia and similar other countries. Recently, huge Investments also made in this

sector from these Gulf countries. For energy sector future in India seems to be very positive and bright as GDP growth of India is very high and it is moving higher in world economic growth.

Corevyan can help any Investor in Energy Sector for support in searching Joint Venture Partner in India, providing consultancy for all Commercial & technical issues, support in establishing Sale, commercial & distribution activities in India.

Fast Moving Consumer Goods (FMCG)

Fast Moving Consumer Goods (FMCG) is one of the sector wherein demand of new product always emerge and to meet that need, companies are regularly putting their best efforts to meet consumer requirements. This emerging new demand is also open up the entry routes for new companies. Recent success story of Patanjali is also evident of how big the market of Indian FMCG sector is and how fast a company can grow in India.

FMCG sector growth rate is expected to be multiplied in coming years, especially the high populated countries like India. Particularly demand of FMCG sector is increasing due to increase in demand in rural areas. After latest implementation of Goods & Service Tax (GST) Act, demand in FMCG sector is growing in India.

Corevyan help you to develop Strategy, identification & resolution of key challenges, identification of Investment opportunities, launching of Brand, establishing Sale & Commercial office in India.

Engineering Goods

Necessity creates revolution. This holds good in the context of Indian Manufacturing sector as well. After implementation of 'Make in India', Goods and Services Tax Act and New Government policies, India is changing drastically as a Manufacturing hub. So many worldwide Investors are moving towards India for setting up their manufacturing facilities in India to cater Asian Market needs.

Due to this sudden upward movement in Manufacturing, demand for all Engineering Goods also increased manifold.

Exporting companies are looking towards India to establish their permanent set up for all Sales, Marketing & Commercial activities.

We in Corevyan always help such Companies for all end to end solutions. Starting from Brand promotion to finding channel partner, marketing of products and support in setting up Sales offices on PAN India basis
